The Amendment filed 26 April 2005 has been entered. After further review and consideration it has been determined that the following action is necessary. Following are new grounds of rejection.

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 45-51, 62, 63 and 70-72 are rejected under 35 U.S.C. 102(e) as being anticipated by Wheatcroft et al US 6,444,448 B1. See examples 1, 2 and 4, claims 1, 3, 4, 8, 13 and 14. The reference clearly shows a process for producing coating compositions comprised of yeast cell wall fractions. Wheatcroft et al uses the same Brewer's Yeast primary constituent and autolysis extraction process as applicants' example 1. The coating formulations would inherently have low oxygen and gas permeability because the process and ingredients are the same.

Claims 45-51, 62, 63 and 70-72 are rejected.

Claims 1-44, 52-61 and 64-69 have been canceled.
